The financial legislation of the Republican party constitutes a series of land marks of American progress. Ib. great measures of the war period were those providing for the issue and ultimate redemption of the legal-tender greenbacks, and for the establishment of the National bank system. These were followed, after the war, by the Refunding and Resumption Acts. The general principles upon which this legislation was grounded assumed that public debt was to be regarded always as a temporary burdien, to be paid as rapidly as possible, and that every promise made to creditors must be fully redeemed. Although a debt was contracted so vast in volume that one years interest upon wexceeded the financial obligations incurred during the War of the Revolution, provision was made for its rapid conversion into securities, bearing low. He is to-day seeking votes under false pretences. He believes in free trade and his party stands fully committed to the policy, but in his mad desire to gratify his personal ambition he scatters principle to the winds and resorts to the "shifty Themes" of the pettifogging politician. Judged by his own standard he is shown to be unworthy of the doundence of the "Timidity, "fathlessness to party piedges," the very terms used in his denunciation of the halting policy adopted by the Democratic representatives in Congress, are written in every line of his letter Cleveland mever possessed much to bank upon as a public man, but in this sowardly change Dase under fire, he has forfelied even the little political capital which has served to keep his name before the people.

Interesting Opinion Revived. Last Tuesday morning the Boston Werng that (leveland was going to that city to have a conference with, "Mr. Murphy, or troker and Mr. McLaughlin." We have already reproduced from the New Work Leening Post a biographical sketch of troker, an "interesting" review of his etreer as a political tought and ruin seller. 14 June last the New York I mee gave its Is an article of merit. It has been given a thorough

an anybody show cause why two such political backguards as Mirphy and Sheethan should be any longer recognized as Lemocrat. The will court recognition. They will claim the title. To leave their party and go over openly to the party they will secretly support in the coming canvass would be an honorable course, so it is unthinkable for Murpay and Sheehan. The behavior of these two then at Chicago pats them outside the pale. They are political pirates, and though it is not particularly our affair, we recommed the unit proceedings. As for Governor's lower, tobody minds him. He diseast know any better.

This it must be remembered is not that

This it must be remembered as not that work of a Republican paper, but the opincan of one of the most radical Cleveland -heets in the country, yet we find the Democratic candidate, the man who has been pronounced so much better than his party in close fellowship with these fammany "corruptionists."

Clevel and and the Veterane.

In his demagogical letter of acceptance w adward in some platitudinous sentences insended as an appeal to the soldier vote. The Durham (N C) Globalis one of the upat earnest advocates of the election of the Democratic candidate, and it gleefully presents his pension record while in the White House as follows.

White House as follows.

During Cleveland's four years' occupancy of the Presidential chair he vetoed by ipscial message 369 private pension bills, in addition to these there were 47 other pension bills killed by what is known as the "pocket veto." Of the pension bills willed by what is known as the "pocket veto." Of the pension bills willed by what is known as the "pocket veto." Of the pension bills willed by by the Forty-ninth Congress Mr. Seveland vetoed by message 109 at the lirst seasion and 25 at the second seasion. It also killed 21 such bills by "pocketing" them. In the Fittieth Congress he iccord by message 102 at the first seasion and 25 at the second seasion, and 20 more by the "pocketing" process. It is this record more than anything else that has won the admiration of the Globe which designates the Union soldiers as "dirty beggars" who were "slapped in the laws by Cleveland during his Presidential arm. It was this record also that are used the indignation of these old Democrats and pallant soldier. Gas. Sich has who match is a significant soldier. The his marriage and the slade of the sold are the same of the same process from the indignation of the sold Democrats and pallant soldier. Gas. Sich has who match is a significant soldier.

Free-Pride. It rill mean a vote for the doctrines commanded in the platform, which decounses the Republican parif as a fraud on like great mayority of the Amerona, people, for the Lenedis of the few, stigmantises a protective tariff as upconstitutional, and proposes to lay outles for obtaining revenue only, without regard to the protection of our own industries. I cannot by my vote affirm anything to fake as this.

THE PRINCE OF THE PROPERTY OF

"My trouble," was rheumatism, dating back to when I was 18 years old, and reducing my weight 90 pounds between the years 1870 and 1872. I had to give up business and devote all my energies to fighting this terrible disease. Nothing helped me until I heard of a discovery made by Prof. Phelps of Dartmouth. I tried the means he recommended and & did me more good than all other mediches put together. My friends now say, 'See Adams, he weighed 189 and was almost a cripple, now he weighs 165 and walks off spry This is all from using Paine's selery compound, and if it will do for others what it has done for me, every one should use it I feel confident that it will, as all to whom I have recommended it speak of it in the highest terms. I know of many cures that it has effected, one in particular, George Smith of this place. Mr Smith could not use his right arm a week ago, but now he has finished sowing a piece of land with oats, the result of the benefit received from Paine's celery compound.
